D36 CABIN

NEXT LEVEL COMFORT AND VERSATILITY.

The D36 Cabin takes the award-winning D36 to the next level, adding a closed cabin that provides greater protection, comfort, and a sense of exclusivity on board. Its smart interior layout includes an independent forward cabin with a double bed, a versatile aft cabin accommodating two to four guests, and the option for overnight stays with a convertible double bed integrated into the U-shaped lounge under the **enclosed superstructure**, making longer journeys possible without sacrificing style or functionality.

With the same performance and sporty character as the original model, the Cabin version enhances versatility and space. Designed for both relaxing day trips and extended adventures, it adapts to every lifestyle at sea with elegance and practicality.
